Mr. R.L. Dent
Anaconda Minerals Company
555 Seventeenth Street
Denver, CO 80202

Subject: Rico-Argentine Mine

Dear Mr. Dent:

Per your request in your letter dated October 31, 1984, I have enclosed an EPA approved Sampling Plan. It includes sampling locations and parameters. The analytical parameters should also include cyanide and should delete total dissolved solids.

The FIT will plan to be on-site at the Rico-Argentine Mine on November 14 and 15, weather permitting. We will bring sample bottles to provide Mr. Jahnke with splits of all ground and surface water samples and two stream sediment samples from Silver Creek.

If you have any questions, please call me.

Sincerely,

Margaret Babits
